

HOD – Host on Demand – first time use

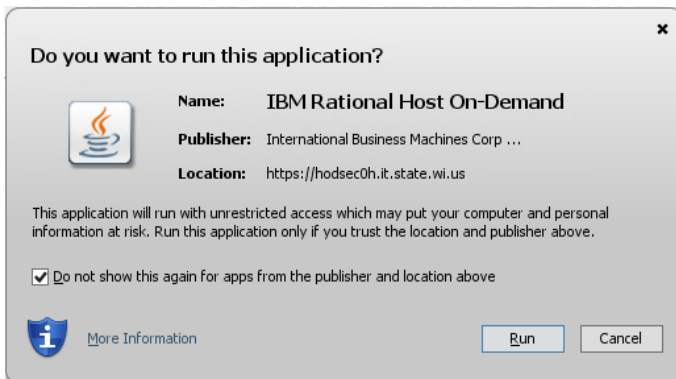

HOD through the DWD Thin Client System site allows access to mainframe sessions from outside the DWD Network without needing a WAMS account.

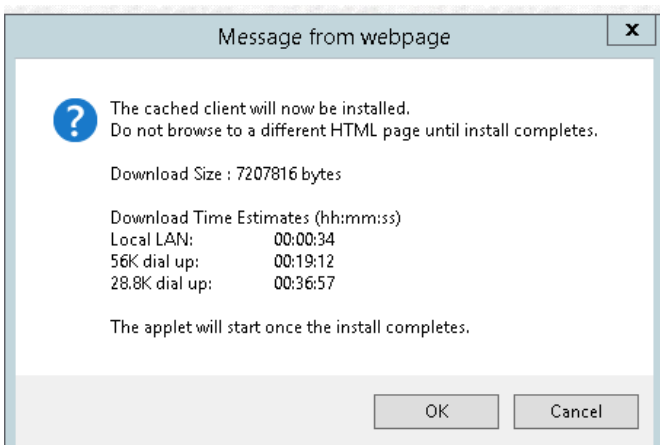

After the initial login, click the HOD icon . Sign into the pop-up window with your mainframe userID and password.

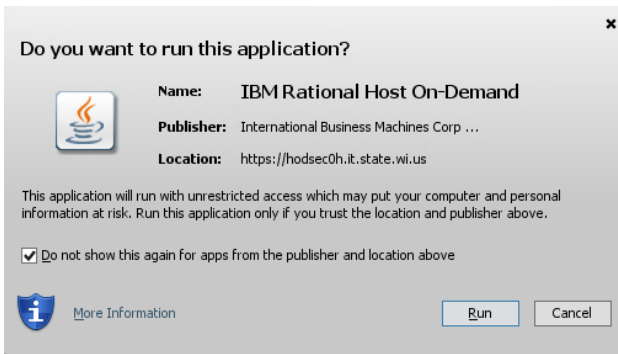

On the next screen, check the "do not show this again" dialog box and select "run".

On the "message from webpage" pop-up window click "ok".

Check the "do not show this again" dialog box and select "run".

The install will start and when complete the HOD mainframe screen will come up.
